

Low Volume Power Sealer

www.pressuresealmachines.com

The PowerSealer is used for hand-fed processing of one-piece pressure seal forms. Easy to use for small volume or as a secondary unit for repairing crumpled or jammed pressure seal documents thus avoiding a reprint. Efficient, handles any hand folded construction up to 8-1/2" wide by any length. Simple set up, easy to adjust for any paper thickness. Compact and quiet design make it perfect for any office. Reverse function to clear any jams. Perfect sealing quality, seals up to 40 pressure seal forms per minute.
